A Disease that Wrecks the System.

Every function is deranged, every nerve unstrung, every muscle and fiber weakened by fever and ague. It is, in fact, a disease which if unchecked, eventually wrecks the system. In all its types, in every phase, it is dangerous, destructive. Stupor, delirium, convulsions, often attend it, and cause swift dissolution. But when combatted with Hostetter's Stomach Bitters its foothold in the system is dislodged, and every vestige of it eradicated. That benign anti-febrile specific and preventive of the dreaded scourge is recognized not only within our own boundaries, but in tropic lands far beyond them, where intermittents are fearfully prevalent, to be a sure antidote for the malarial poison and a reliable means of overcoming disorders of the stomach, liver and bowels, of which a vitiated torrid atmosphere and brackish miasmatainted water are extremely provocative. All emigrants and travelers should be supplied with it.

DAILY NEVADA STATE JOURNAL

E. C. FOWNING, EDITOR AND PROPRIETOR

TUESDAY.....APRIL 29, 1879

THE Paradise Valley M. Co. has shipped bullion to the amount of $120,000.

IN Elko county there are twenty-one teachers in the public schools, and about eight hundred and sixty pupils.

PREPARATIONS are being made in Dayton for the usual May-day festival. The programme is the May-pole dances, besides a good selection of vocal and instrumental music.

AT the annual meeting of the Virginia and Gold Hill Water Company, held last week, Captain Overton was elected President and relected Superintendent of the company.

PRELIMINARY papers have been served in a suit which S. B. Chittenden and General Butler agreed should be brought to test the validity of the issue of United States legal tender notes in time of peace. Whatever the decision by Judge Blatchford may be the defeated party will appeal to the Supreme Court of the United States in time probably for argument at the October term.

A GALVESTON dispatch of the 26th has the annexed report of a bad storm down that way: Heavy rains throughout Texas caused the streams to overflow. The railroads are washed out and traffic entirely suspended. At Houston the water rose eighteen feet in three hours, and carried away all the railroad bridges and many warehouses along the banks of Buffalo bayou. Damage is great.

FLOWERS and plants of all kinds continue to arrive in Virginia form California. The Enterprise says that during the past fifteen years enough flowers and plants have been landed from California to cover with garden an area of ten thousand acres round about the city and all they have to show for it each Spring is the sapless stump of a rose bush or two sticking in the center of an earthen pot.

THE recent fires in Reno and Eureka have awakened precautionary measures elsewhere. Elko, says the Post, is taking proper precautions. Several hooks and ladders will be placed up and down Main street, easy of access to all; probably, one in front of the Depot Hotel and one at each of the railroad depot buildings. Also, some buckets will be procured, thus putting into the hands of our citizens a means of extinguishing a fire in its beginning.

THE President's veto will bring the session of Congress to a sudden close. The Democrats will thereupon pass a joint resolution continuing last year's appropriations until December. All this ought to be accomplished in two weeks. The principal House committees have so far undertaken no business, and it is known that the Speaker and those Chairmen of Committees with whom he consults are opposed to beginning the transaction of business at this session.

THE San Francisco Post has gone into the chromo business. A late issue of that journal contains a ship called the "Old Constitution," threatened by the pirate craft "New Constitution." Down below are all the warehouses closed, savings banks and asylums shut up, capital leaving in trains and vessels, John Chinaman growing fat over what is left, all the mechanics ragged and out of work, women and children starving, High Schools going to ruin, a policeman pursuing a small boy who has stolen a loaf of bread, crowds of poor people crying after Capital to come back, John Chinaman peddling cheap shoes, and the whole surrounding a vivid picture of Minerva weeping, while the bear, horn of plenty, plow and other figures on the State seal are lying around loose greatly demoralized. It is a spirited picture.

ALL the savings banks in San Francisco have united in an address to their depositors, in which they say: "Under the old Constitution the State has prospered and its varied resources have been developed to a large degree. The rules by which the rights of persons and property are governed, have been laid down with unmistakable accuracy by Courts created by the people, and enjoying the public confidence. A few amendments will bring the necessities of the times; these changes can be accomplished without giving a shock to the entire business interests of the coast. These savings banks owe their existence to you. Your deposits have built them up. An injury to them is an injury to you. As Directors of your savings banks, as conservative members of this community, as citizens who have sincerely at heart the welfare of the State, we view with grave apprehension the possibility of the adoption of the new Constitution."

HON. THOS. WREN'S VIEW ON THE SITUATION.

Will the President Use His Veto Power?—Mischievous and Dangerous Legislation.

[Eureka Leader, 26th.]

Last evening a reporter of the Leader called on ex-Congressman Wren, who has just returned from Washington City, to have a chat with that gentleman in relation to men and measures at the Nation's Capital. The following is the result of the interview:

EXTRA SESSION.

Mr. Wren said there was now no doubt that the Democrats had made a great blunder, politically, in forcing an extra session of Congress, this being admitted by very many moderate Democrats. It is conceded at Washington that it has united the Republican party and, for the first time since the inauguration of President Hayes, there is entire harmony in its ranks.

Upon the other hand, remarked Mr. Wren, it has produced serious dissensions in the Democratic party. Senator Bayard, whose opposition to the course pursued by his party, is outspoken, has a large following amongst the Democratic members of Congress, and I am confident that nothing but the iron rule of the caucus prevents them from voting with the Republicans to pass the Appropriation bills at once, and adjourn.

When I left Washington the belief was gaining ground that the President would veto the Appropriation bills with the objectional legislation attached, and that thereupon the Democrats would extend the appropriations of the last session of Congress six months, and adjourn. If this course is pursued the contest may be resumed next Winter. The probabilities, however, are that a few Northern Democrats, finding the drift of public opinion against the course will refuse to attempt to force the President to surrender his constitutional right and violate his duty, and approve the measures he honestly believes he should veto.

WILL HE VETO?

It is almost certain that he will veto the appropriation bills with the objectionable "riders" upon them, and it will give him an excellent opportunity to present all the strong arguments that have been used against the objectionable features of these "riders."

RESULT OF THE CONTEST.

The forced calling of the extra session and the avowed purposes of the Democratic party, has aroused the North to a sense of danger at last, and not a bit too soon. There is a larger and more reckless revolutionary element in the present Congress than there was in the one immediately preceding the war. Led by Blackburne in the House and Beck in the Senate, both able, this element controls the Democratic party. Their purpose at present is to seize upon the government by the same methods used by them to make the South solid, and then who can predict what they will not attempt? During the last Congress this element was constantly urging and supporting mischievous and dangerous legislation, the reduction of the army, the infamous "Wood Tariff bill," the expansion of the currency, the repeal of the resumption act, and a number of other kindred measures were vigorously pushed by them. New York, Connecticut and New Jersey Republican was the result at the succeeding elections. It only needed an attempt to break down all protection to a free and fair ballot, and to attempt to accomplish that by refusing the appropriations necessary to carry on the Government, unless the President approved the measures for that purpose, to fully awaken the people to the fact that these men intend, at the next Presidential election, to seize the Government, or as Blackburn expressed it, "their birthright" by force and violence. As the North is now fully alarmed, the discomfiture of these men and their allies may be regarded as certain.

THERE is said to be a corner on building lumber in Virginia, Gold Hill and Carson. The stock of lumber dressed last season is nearly exhausted, and the mills have contracts to cut mining lumber which will keep them busily engaged for weeks ahead.

BUSINESS NOTES.

The Manayunk (Pa.) mills are all very busy.

In Boston the wages of seamen have advanced.

The Lynn (Mass.) shoe business continues brisk.

In Chicago money is abundant and interest rates low.

Many of the Southern railroads are relaying their tracks.

Five Newark (N. J.) firms are now sending axes and hatchets to Mexico.

The Ludington (Mich.) Iron Works are run day and night and on Sundays.

Several iron furnaces in and around Pittsburg long out of blast have resumed operations.

At Fall River the stock of prints is understood to be very much less than it was a year ago.

The Philadelphia and Reading Rolling Mills, at Reading, have several heavy contracts on hand.

It is expected that the Antietam Iron Works, in Cumberland, Md., will soon resume operations.

According to a correspondent of the Philadelphia Press, the prospects of the peach crop are excellent.

North Carolina has over fifty cotton manufacturing establishments and is rapidly adding to their number.

At Cleveland, Ohio, the wages of ship carpenters range from $1 75 to $2 75 per day, and work is said to be abundant.

The prospects of the Glenn's Falls (N. Y.) lime companies this season are excellent. Twelve kilns are now in operation.

Building in Paterson, N. J., is rather brisk. Several improvements are being made in different sections of the city.

In the West the Spring trade has opened with a good deal of animation, and the aggregate sales are reported to be far ahead of last year.

The cotton mills of the Sprague Manufacturing Company in Augusta, Me., are doing a rushing business. They run two nights in the week until nine o'clock.

A New Albany (Ind.) firm will soon begin the manufacture of felt. Although the demand for this article is large it is made in this country to only a very limited extent.

The annual crop of tobacco (raw leaf) is estimated at 420,000,000 pounds. About two-thirds is exported. More than one hundred thousand people are employed in its preparation for consumption.

A Pittsburg paper reports that the steel trade of that city is in a more satisfactory condition as regards prices than at any time within the past four years, and the different works are crowded with orders.

Texas is the third sheep State in the Union. California ranks highest, next Ohio and then Texas. It is only twenty years since George Wilking Kendall of the New Orleans Picayune, introduced sheep husbandry into the Lone Star State.

A Troy (N. Y.) journal says the M. A. Wood Company employ 1,500 men, and now turning out more machines than ever before. Last year they manufactured 14,000 mowers and reapers, but the present indications are they will increase that number to 20,000 before the close of the present year.

The amount of sawed lumber and logs now lying upon the banks of the Delaware river, between Lackawaxen and Cochecton, awaiting shipment, is said to be the largest since the panic of 1873 when such a depreciation in prices occurred. At this time the prices are only moderate, but slightly in advance of that year.

HORSE THIEVES.—Lee Duval, informs the Silver State that horse thieves are plying their vocation pretty lively in Paradise Valley at present. They stole a horse worth $200 from Widow Lamance, and took a mule that was hitched to a post near Kemler's store. A band of them with fourteen horses, probably all stolen, were seen on Martin creek, and a party started in pursuit of them.

FOUR hundred mules have been shipped to the British in Zululand. It is suggested that if the right end of them be pointed at the enemy they will do terrible execution.

GAS is cheap enough in the Eastern States:

In Boston, the price has been reduced to $2 per thousand. Lowell has the article furnished at $1,80. At Hartford, Connecticut, the price has been reduced from $2,75 to $2. In New Haven the price from $4,50 to $4. Cleveland citizens get their light at $2, and public lamps and buildings are furnished at $1,25. A BRIGHT little girl, having been desired to write a sentence, introducing the word "carrion," presented the following to her teacher: "Bad children often carrion in church when they ought to be quiet."

"Always pay as you go," said an old man to his nephew. "But, uncle, suppose I haven't anything to pay with!" "Then don't go."
